6/25/77, Dear Harold:

Goff of SS has responded to my request for records concerning your efforts to get the memo of transfer. I consider his letter nasty and deliberately unhelpful. I'll send a copy as soon as I can make one. In the meantime, he asks that I send an authorization in writing and signed by you. I have typed up such an authorization and enclose two copies; please sign one and return it to me. I will then make a Xerox for myself and send the original to SS. If you object to my formulations, feel free to write your own authorization. I thought this would be more convenient for you.

Best,

Howard
